FOUNDATION

*The human-equine
relationship is
threaded
throughout the
fabric of our history.*

Humanity has been able to spread far and wide on the backs of horses -- but the carnage of horses at the hands of humans is also well documented. Sadly, horses are still faced with the same challenges, continuing to put their future welfare in jeopardy.

Viewed as commodities, too many horses are regarded as disposable for profit when they no longer serve their owners' purpose -- when their owners cannot, or no longer wish to, care for them. Many are young, healthy and have untapped potential. Over 37,000 horses were transported across our borders for slaughter in 2020. Tens of thousands more abused and neglected horses are in need of rescue and re-homing each year.

The EQUUS Foundation is committed to not only increasing adoptions of at-risk horses and providing a safe-haven for the aged and infirm ones, but also increasing opportunities for all people to engage and partner with horses in new and innovative ways.

EQUUS
FOUNDATION

FOR THE LOVE OF HORSES

The solution is within our reach!

37,249 Horses shipped across the border to be slaughtered last year

61 million People with disabilities in the United States

69,000 People with disabilities currently being assisted by America's horses.

7,900 Horses currently assisting Americans with disabilities.

*For horses to remain an important
part of American life and have a
viable future, we need to
embrace a fundamental shift
in our attitude towards horses --
from the horse as a commodity to
the horse as a hero and healer.*
